The sky clears minutes before the eclipse begins. We watch the progress with cardboard glasses and chat with a local TV news reporter.

Plank

5

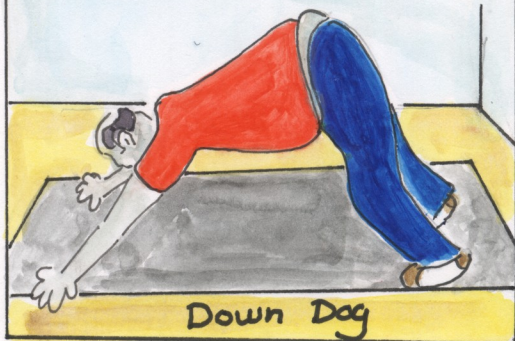

Five minutes before totality I can see Venus and Jupiter. oh wow!

Up Dog

6

Totality! The blue sky dissolves and so do we. A beautiful wink of an eye. It only lasts 1 min 15 sec.

Down Dog

7

A new curtain of clouds closes the show. We pack up and head north.

Mountain
